Name: M.V. Raj Varun
Reg No: 192411007
Course: CSA1027, Software Engineering

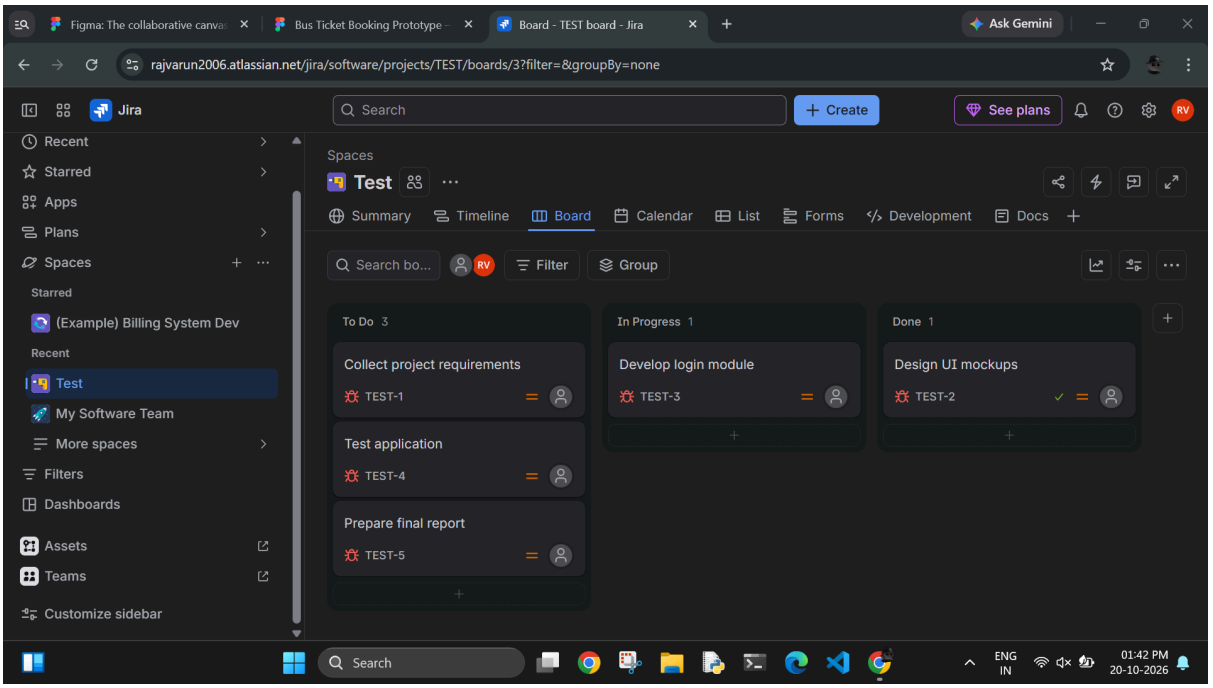

Experiments 1-3

1- Kanban Board to Visualize the Tasks

1) Go to Jira and create an account and login
2) Click ‘Create Project’ and select Kanban
3) Click ‘Create’, then ensure the board has ‘To Do’, ‘In Progress’ and ‘Done’
4) Click ‘Create Issue’ and add atleast 5 sample tasks
5) Move the Tasks across the Columns to Simulate the Workflow.

2 - Prototype of Bus Ticket Booking System in Figma

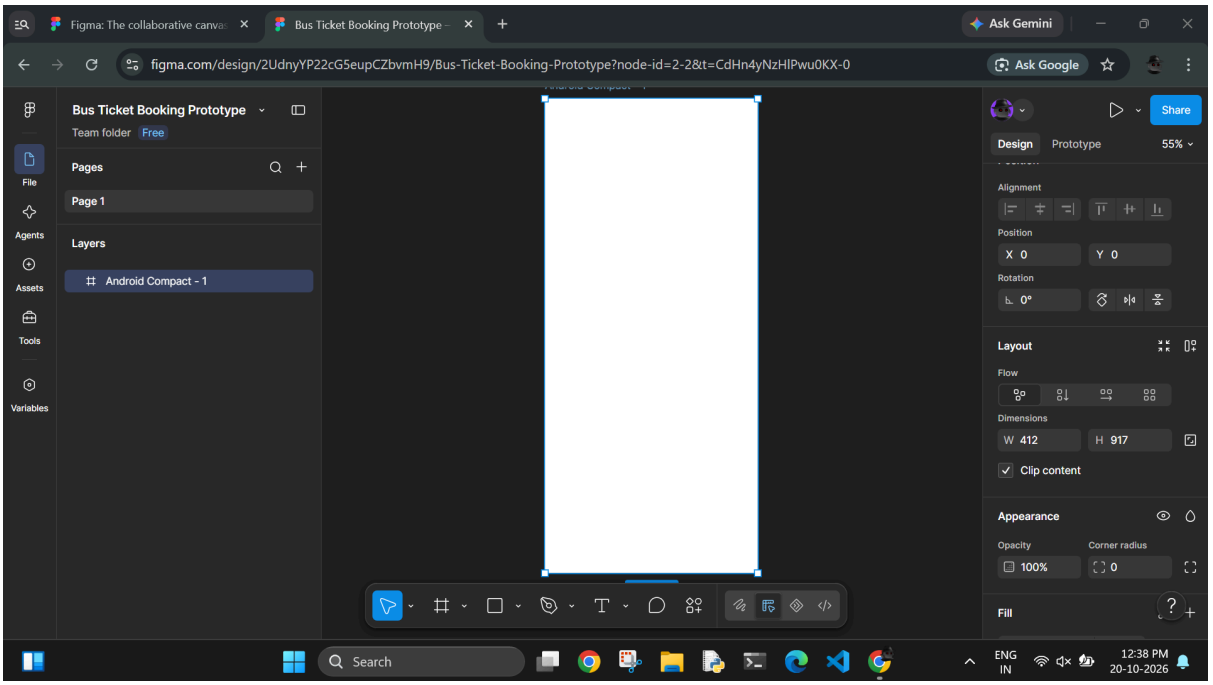

1) Go to Figma and Login/Signup to account

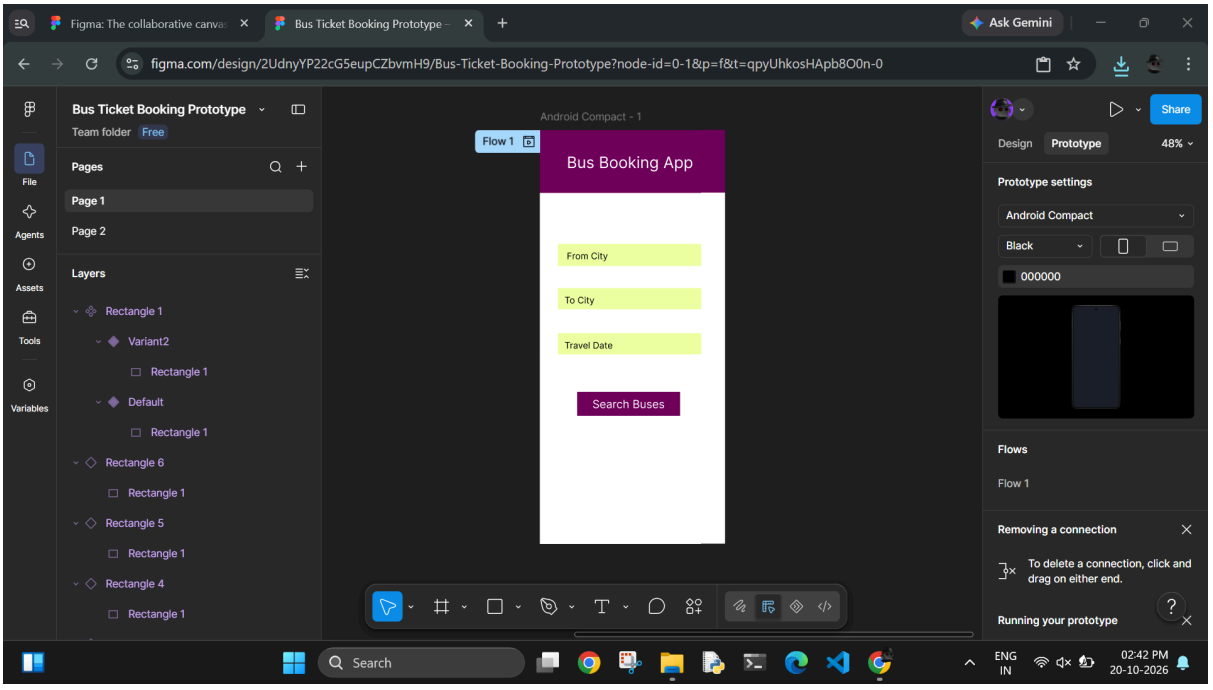

2) Click ‘New Design File’

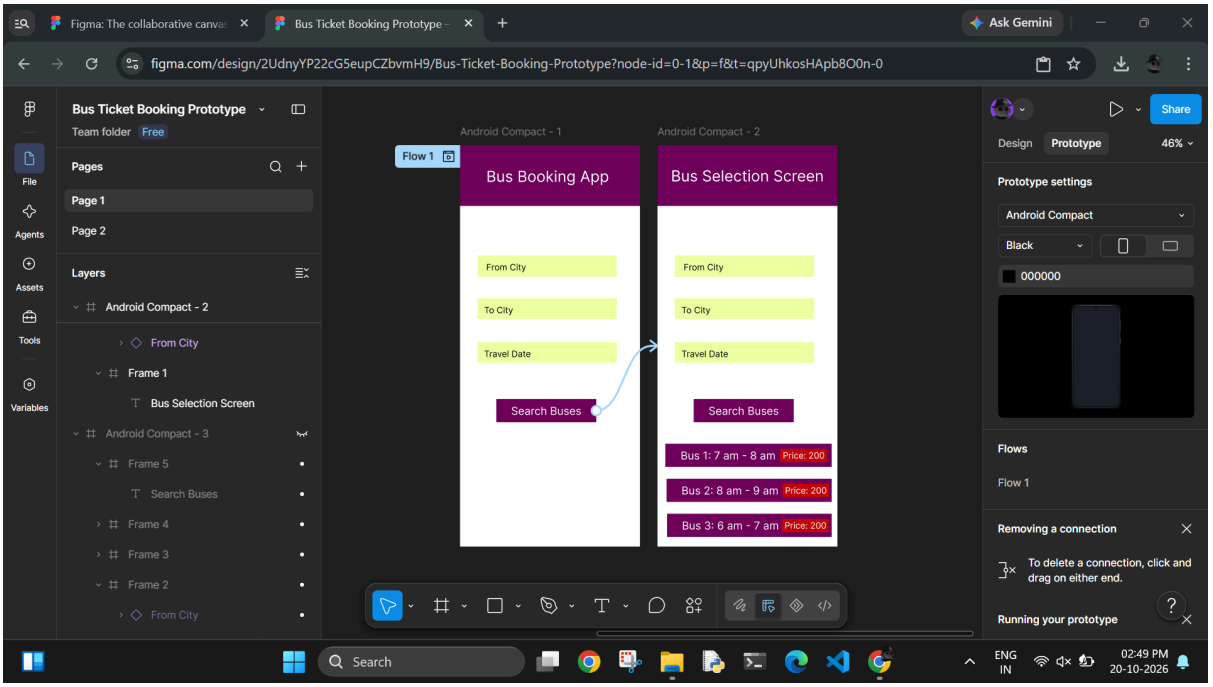

3) Click Frame tool and select Android/iPhone

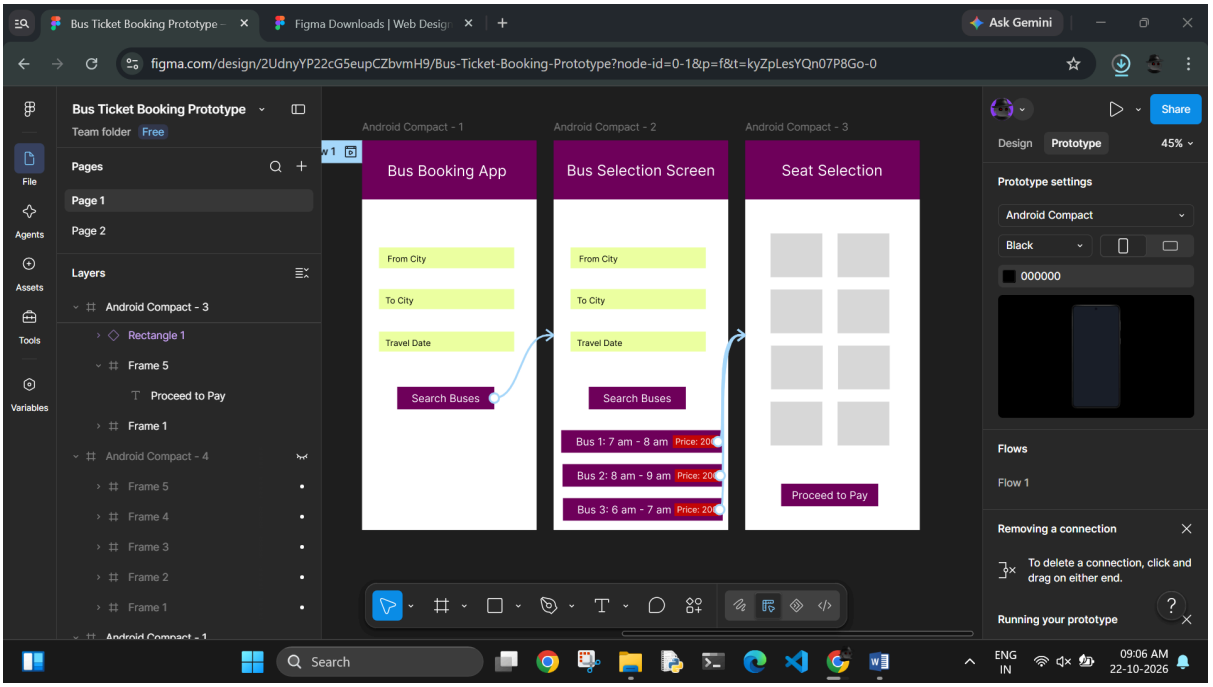

4) Design Home Screen with header, input fields and a button

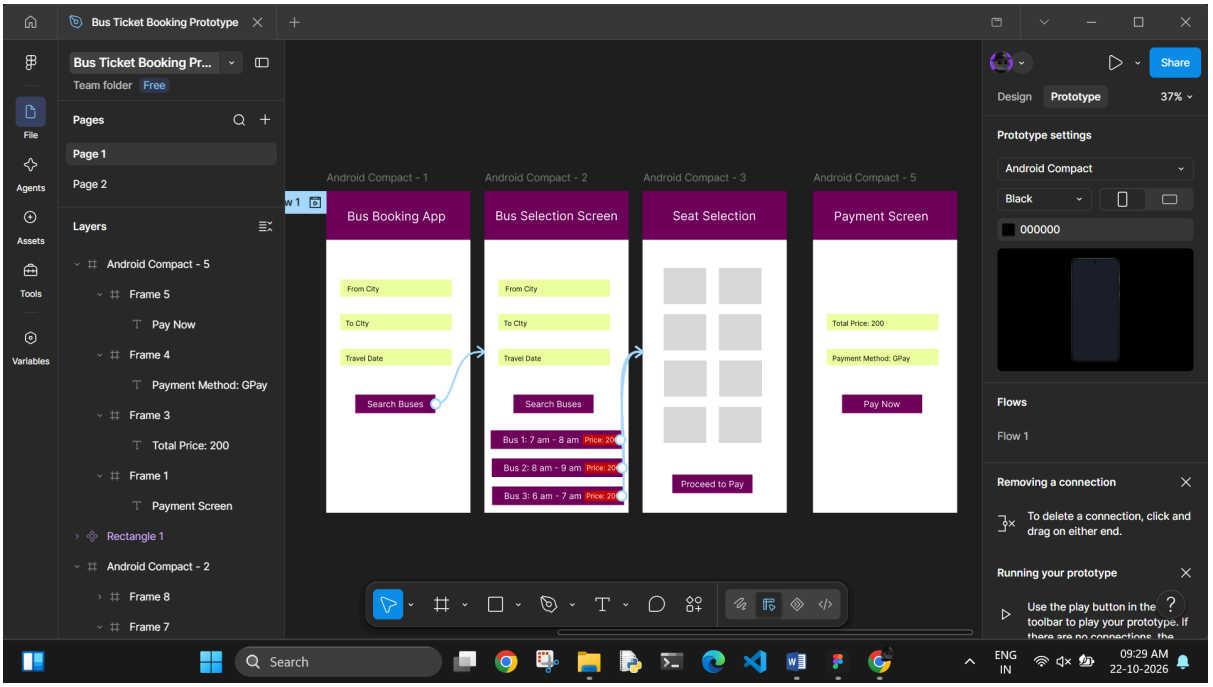

5) Design a Bus List Screen by duplicating previous frame and create 2-3 sample bus listing with bus name, time, price and a book now button each

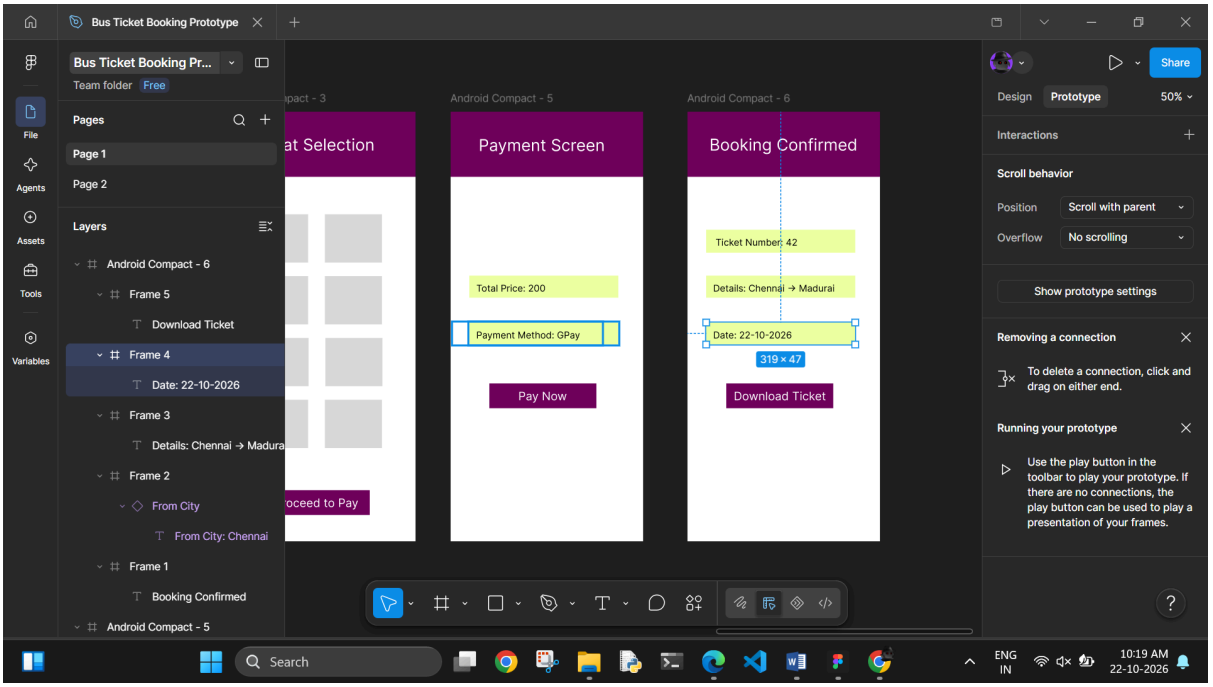

6) Design a Seat Selection Screen by duplicating frame and adding seat grids and making sure that selected seat is in different colour and a ‘Proceed to Pay’ button

7) Design a payment screen with ticket summary, total price, payment method, and a button for paying

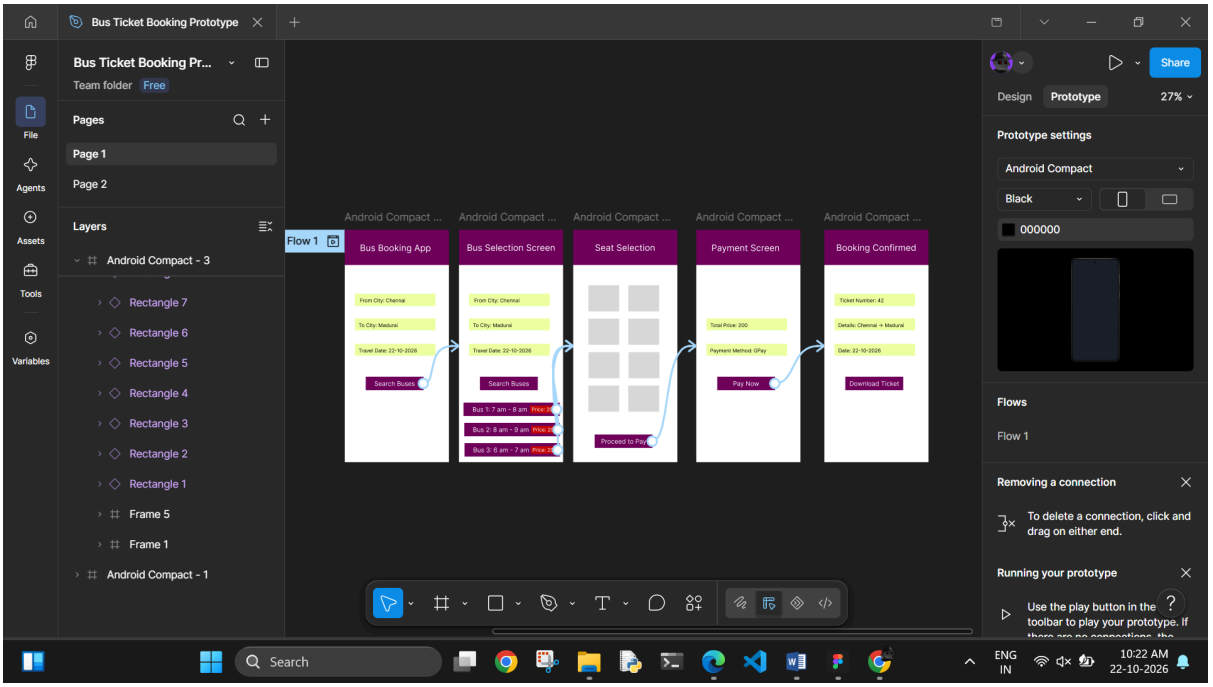

8) Design a confirmation screen which shows that booking is confirmed and the ticket number, travel details and a download ticket button

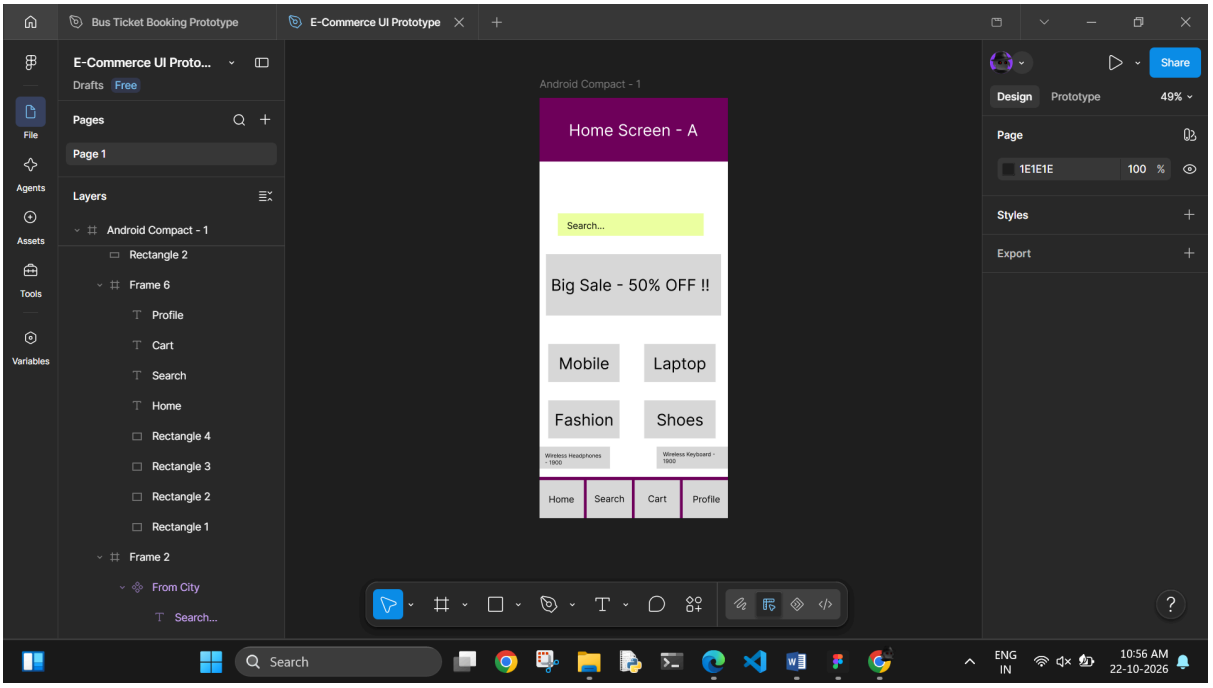

9) Click the Prototype tab and connect:

- Search Buses ⟶ Bus List Screen
- Book Now ⟶ Seat Selection
- Proceed ⟶ Payment
- Pay Now ⟶ Confirmation

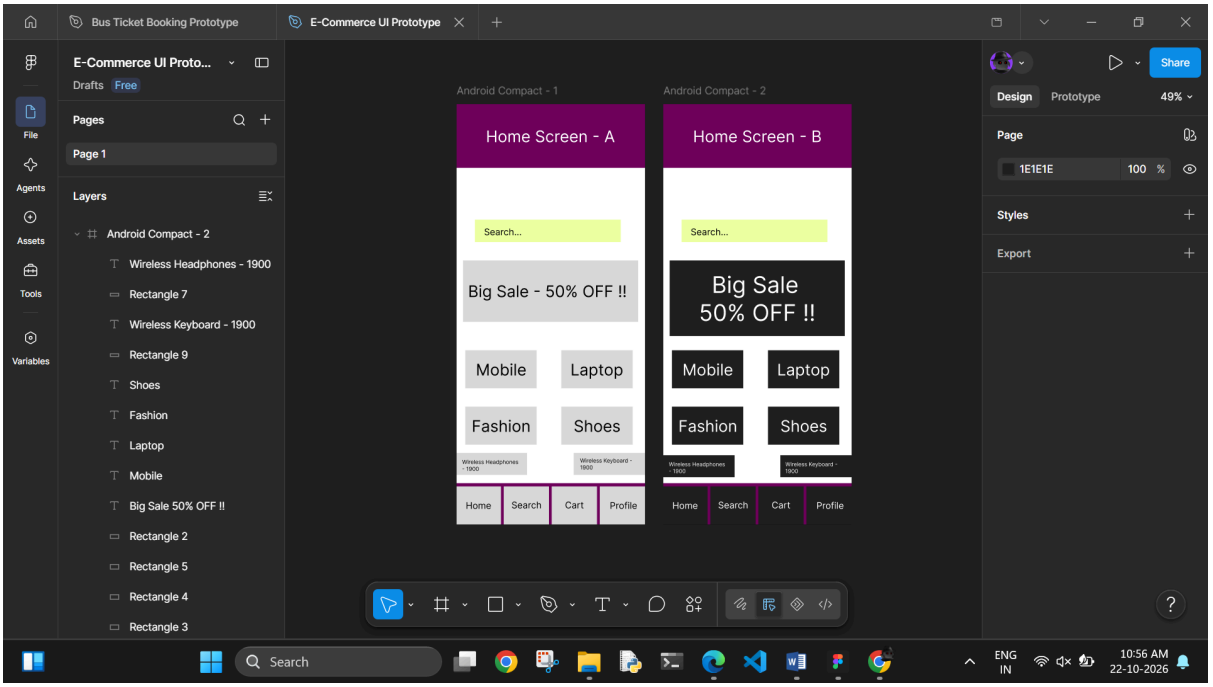

3 - Prototype E-Commerce App in Figma

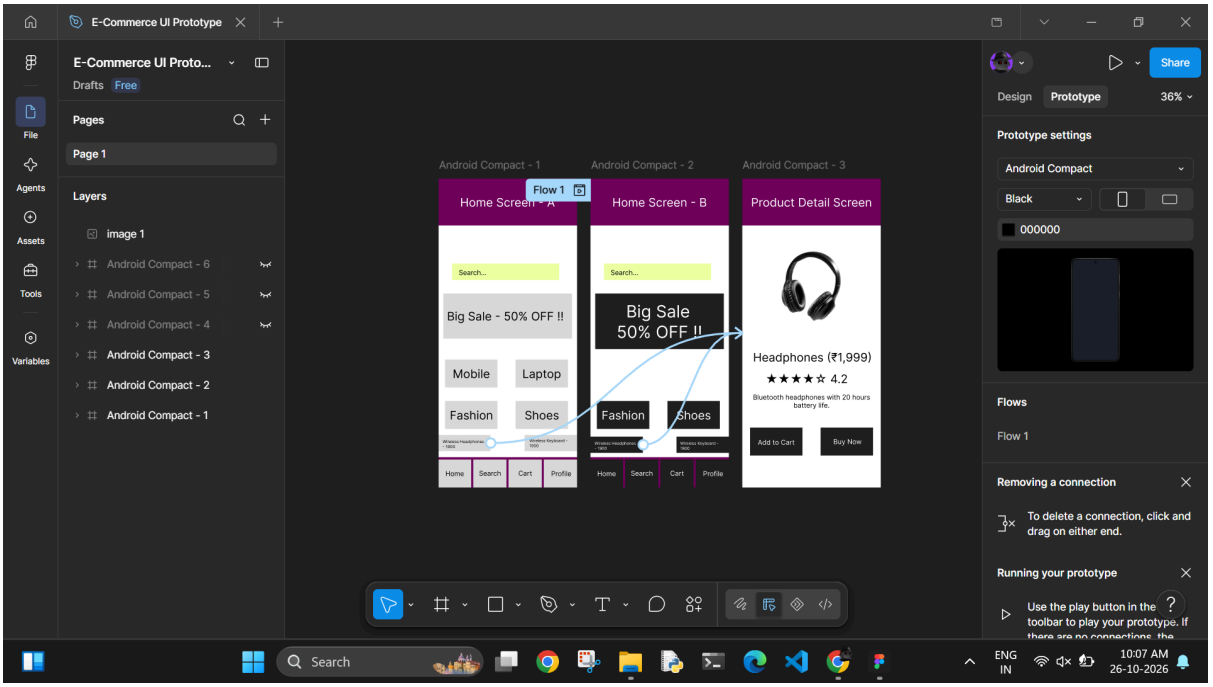

1) Go to Figma and Login/Signup to your account, Click ‘New Design File’
2) Select Frame tool and choose Android/iPhone device
3) Create Home Screen - Version A with these elements:
    - App logo + title
    - Search bar
    - Banner image
    - Category icons
    - Product cards
    - Bottom navigation bar

4) Duplicate the previous screen for Version B with these changes:
    - Dark theme
    - Larger banners
    - Sidebar menu icon
    - Bigger product cards

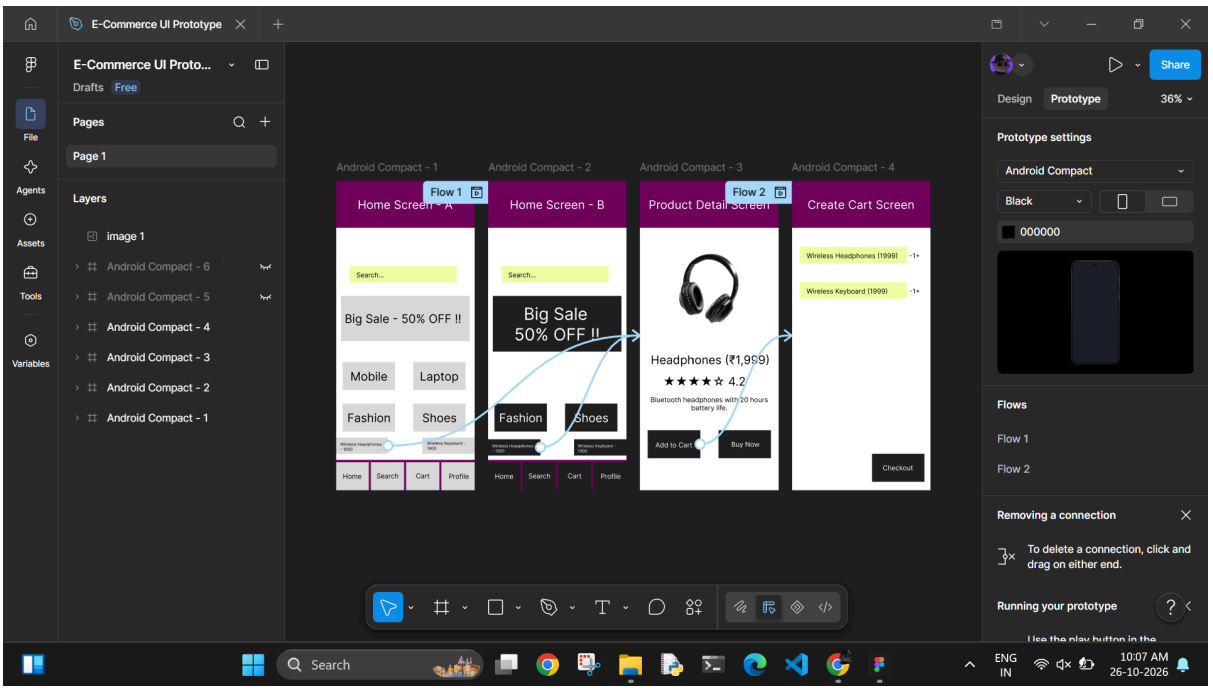

5) Create Product Detail Screen with these:
    - Product image
    - Price
    - Rating
    - Description
    - Add to Cart button
    - Buy Now button

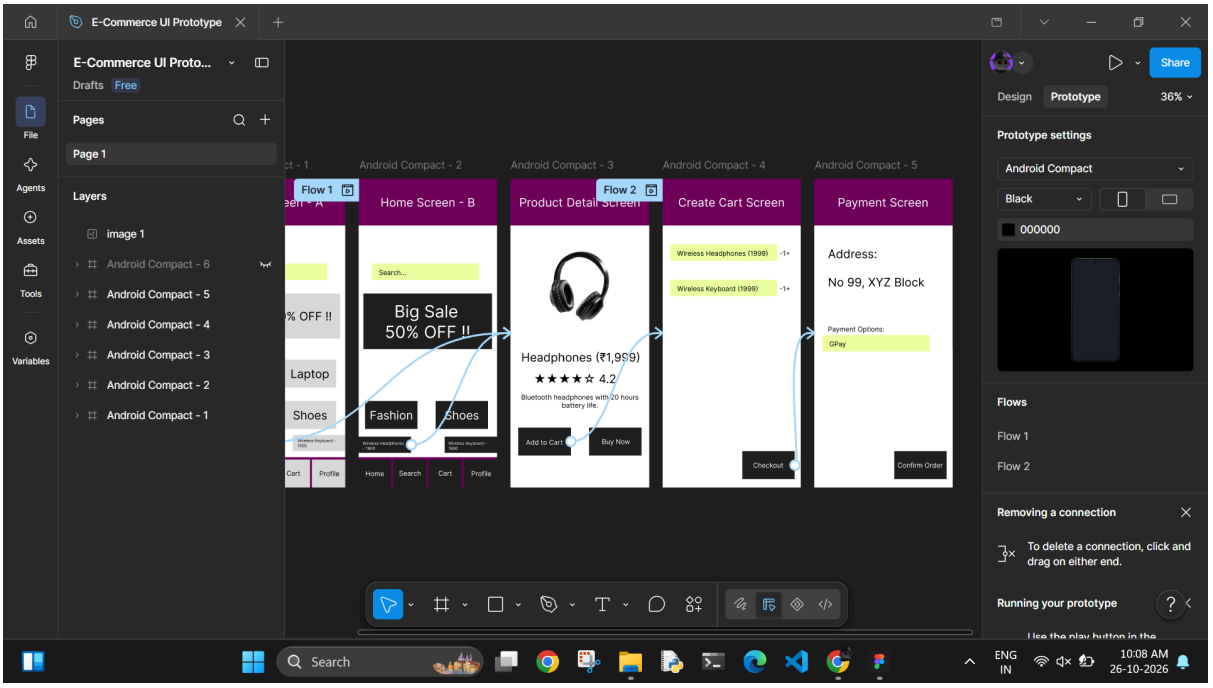

6) Create Cart Screen with these:

- Product list
- Quantity buttons
- Total price
- Checkout button

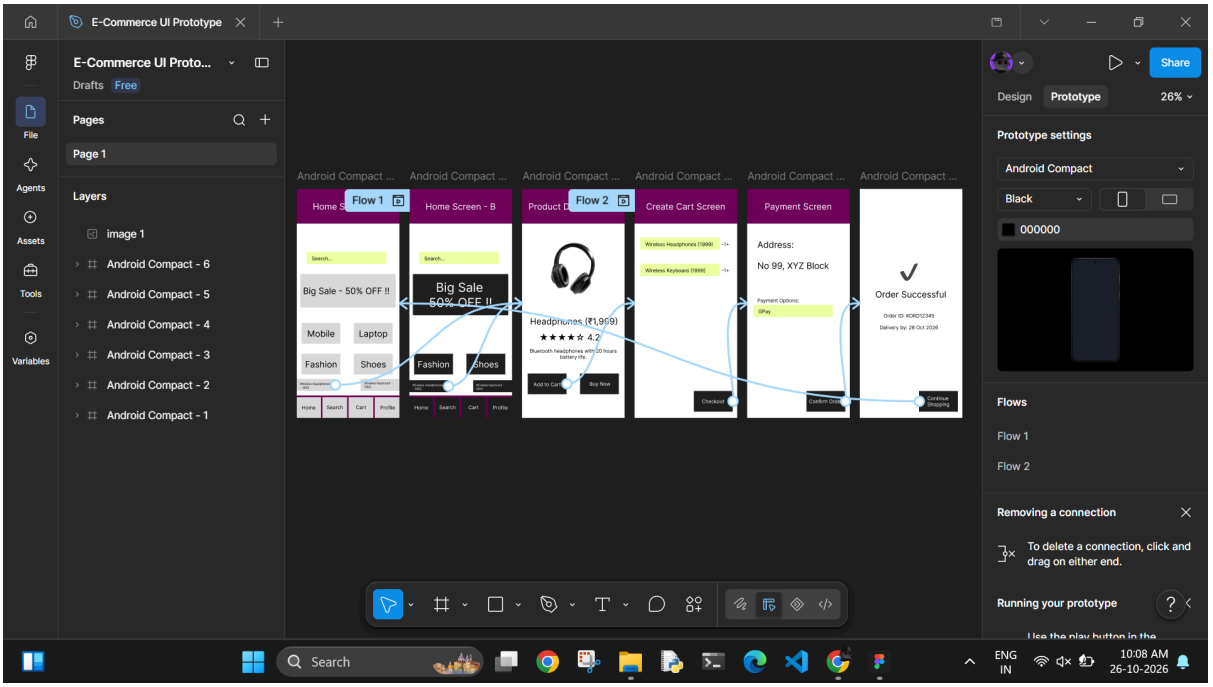

7) Create Payment Screen with these:

- Address section
- Payment options
- Confirm Order button

8) Create Order Confirmation Screen

- ✔ Order Successful
- Order ID
- Delivery date
- Continue Shopping button

9) Open Prototype tab and connect:

Version A Home → Product Detail

Version B Home → Product Detail

Add to Cart → Cart Screen

Checkout → Payment Screen

Confirm Order → Confirmation Screen
